Respironics DreamStation Series: Single Battery Connection
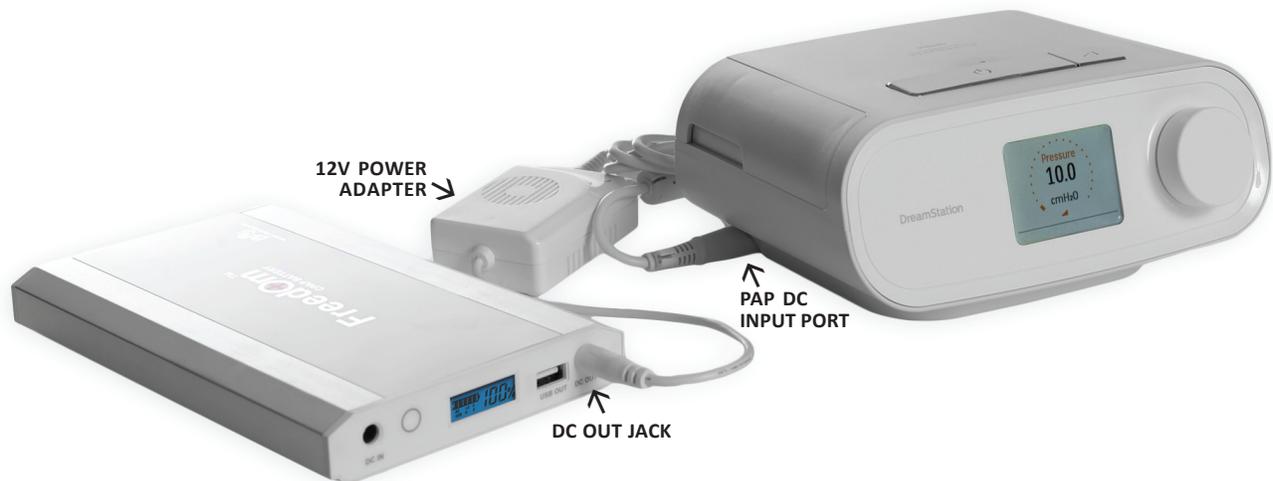

The DC input port on Respironics DreamStation series devices require a proprietary signal in order to recognize a valid power source; therefore, the use of a 12V power adapter is required in conjunction with the Freedom™ CPAP Battery. Our 12V power adapter was designed specifically for use with Respironics DreamStation series devices and the Freedom™ CPAP Battery.

REQUIRED COMPONENTS

- Freedom™ CPAP Battery Kit
- DreamStation 12V Power Adapter

CONNECTION INSTRUCTIONS

- Plug the 12V power adapter into the DC OUT jack of the battery.
- Plug the 12V power adapter into the DC input port of the PAP device.
- Turn the PAP device on and it should begin functioning.
- The digital display screen will show the charge level of the battery. You may press the charge level indicator button to illuminate this screen. It will stay illuminated for a few seconds at a time.
- When not in use disconnect all devices from the battery thus allowing the battery to completely shut down.
