

SunPower

40W Solar Panel

**Keep your CPAP Battery charged up
and ready to go using the power of the sun!**

- The perfect solution for those who are going off the grid and will not have access to AC power or a vehicle to charge their Freedom™ or C-100 model CPAP battery.
- Made from monocrystalline solar cells with low profile panels with an anti-reflective coating that produces more energy from any angle.
- 22% efficiency rating (ratio of energy output from the solar cell to input energy from the sun) makes it one of the highest performing portable solar panels on the market.
- Three flexible panels fold to 12.5" x 12.5" x 0.75" and weigh just 2.7 lbs. making it ultra portable.
- Charge other small devices like cell phones and tablets that operate from 19.2V or less by using the included DC input cord and the device's DC power cord.

SPECIFICATIONS

Open Size: 41" x 12.5" x .075"

Folded Size: 12.5" x 12.5" x 0.75"

Weight: 2.7 lbs.

Solar Cell Type: Monocrystalline

Efficiency Rating: 22%

Rated Wattage: 40W

Output (with voltage controller): 14.6V

Output (without voltage controller): 19.2V

Warranty: 1 year
